## **\* CRISTALLO**

**E' il nobile materiale prodotto da sempre da RCR dalla fusione di materie prime purissime, tra cui sabbia finissima e ossido di piombo che gli conferisce le proprietà ottiche del diamante.**

## **\* CRYSTAL**

**The noble material RCR has always produced from the melting of extremely pure raw materials, including the finest sand and lead oxide, which gives it the optical properties of diamonds.**

LEAD CRYSTAL

## Il cristallo al piombo al 24% ha: 24% lead crystal offers:

**Assoluto prestigio e un fascino particolare: assistere alla nascita del cristallo è un'esperienza affascinante, pur tramandando la tradizione ereditata dai maestri vetrai, RCR utilizza i processi più sofisticati e la tecnologia più avanzata per garantire la massima purezza e la massima qualità**

**Absolute prestige and a particular charm: watching the birth of crystal is a fascinating experience; while adhering to the tradition passed down from master glassmakers, RCR also utilises the most sophisticated processes and the most advanced technology to guarantee maximum purity and maximum quality**

**Massima brillantezza, per l'alto indice di rifrazione della luce che è pari a 1,5450**

**Maximum brilliance, due to the high light refractive index of 1.5450**

**Alta sonorità, il cristallo emette delle tonalità di elevata e piacevole sonorità e durata**

**High resonance: the crystal emits tonalities of elevated and pleasing sonorosity and duration**

**Lavorabilità e molatura, la particolare composizione rende il cristallo duttile e malleabile e quindi adatto ad essere lavorato, tagliato e molato**

**Workability and grinding: the particular composition renders RCR crystal ductile and malleable, and thus suitable to be crafted, cut and ground**

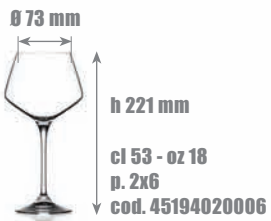

**\*forma e sostanza giocano a tutto campo tra inedito e tradizione**

**form and substance play the field between novelty and tradition**

# LUXION®\*

---

## \* LUXION®

**E' l'innovativo e rivoluzionario materiale creato dai laboratori RCR dalla fusione di una miscela brevettata delle materie prime più pure con le tecnologie più avanzate che consentono di ottenere la massima qualità con il minimo impatto ambientale e vantaggi per l'utilizzatore finale. Tra questi maggiore resistenza ai lavaggi e minori rotture.**

## \* LUXION®

**The innovative and revolutionary material created by RCR's laboratories through the melting of a patented mix of the purest raw materials using the most advanced technologies, which allow RCR to obtain maximum quality with minimum environmental impact, as well as advantages for the end user, including greater resistance to washing and less breakages.**

## LUXION<sup>®</sup> è: LUXION<sup>®</sup> is:

**Trasparente ed incolore, perché in RCR si utilizzano soltanto materie prime di primissima qualità che consentono di avere una colorazione residua prossima al bianco assoluto. E quindi grazie alla sua trasparenza Luxion<sup>®</sup> è il vetro sonoro con più alta trasmissione della luce e con il miglior equilibrio trasparenza/luminosità. La sua trasparenza e la completa assenza di colore ne fanno il prodotto principe per la degustazione e il settore professionale della ristorazione**

**Transparent and colourless, because RCR utilises only raw materials of the highest quality, which allow for a nearly absolute white residual coloration. Likewise, due to its transparency, Luxion<sup>®</sup> is the crystal glass with the highest light transmission and best transparency/luminosity balance available.**

**Its transparency and complete absence of colour make it the paramount product for tasting and for the professional restaurant sector**

**Luxion<sup>®</sup> è un marchio registrato e un brevetto in fase di rilascio, n. FI2007A000291**

**Luxion<sup>®</sup> is a registered trademark and a pending patent, NO. FI2007A000291**

**Brillante, perché ha un indice di rifrazione ha un indice di rifrazione maggiore di tutti gli altri cristallini in commercio**

**Brilliant, because it has a greater refractive index than any other crystal glass on the market**

**Lavabile in lavastoviglie, oltre ad essere un materiale leggero, LUXION<sup>®</sup> ha una notevole durezza ed ha una eccellente resistenza e stabilità ai lavaggi in lavastoviglie**

**Dishwasher-safe - in addition to being a lightweight material, LUXION<sup>®</sup> has remarkable hardness and excellent resistance to stand up to dishwashers**

**\*quando l'armonia incontra la  
trasparenza nascono equilibri
