Negli oggetti di uso quotidiano la ricerca del segno formale rende talvolta secondaria la funzionalità. Piet Billekens ha ristabilito nel progetto PLUS l'equilibrio tra concetto e funzione, disegnando rubinetti e complementi d'arredo non subordinati a stili o tendenze. Massima attenzione ai materiali e peculiare controllo dei processi di lavorazione sono garantiti dalle Aziende produttrici che condividono il concetto di qualità totale.

Sometimes the research of a formal design in everyday used objects might give to functionality a secondary role. Thanks to Arch. Piet Billekens the project PLUS, has re-established the balance between concept and function, designing taps and furnishing complements free from any style or trend. The highest attention was also given to the materials, with a peculiar control to the manufacturing process granted by Companies sharing the common concepts of total quality.

La recherche du design tout-court dans des objets qu'on vit au quotidien fait sortir que des fois la fonctionnalité soit moins efficace. Piet Billekens a rétabli l'équilibre entre fonction et design, désirant définir des robinets et des accessoires non catalogués par modes ou styles reconnus. Le plus attentif choix des matériaux et le contrôle de tous les procédés du travail sont assurés par les deux Industries qui considèrent essentielle la qualité totale.

Bei der Suche nach ausdrucksstarken Formen und Merkmalen für Artikel und Merkmalen für Artikel des täglichen Gebrauchs darf die Funktionalität auf gar keinen Fall eine zweitrangige Rolle spielen. Mit dem Entwurf von Armaturen und Möbelobjekten, die keinem Stil oder Trend folgen, ist Piet Billekens auf hervorragende Weise die Balance zwischen Design und Funktionalität gelungen. Die Hochwertigkeit der verwendeten Materialien wird durch die Verarbeitung auf höchstem Qualitätsniveau, welches die beteiligten Betriebe zur Prämisse erhoben haben, auf besondere Weise hervorgehoben.

En los objetos de uso cotidiano la búsqueda del diseño formal devuelve veces como papel secundario la funcionalidad. Piet Billekens ha restablecido en el proyecto PLUS el equilibrio entre concepto y función, diseñando grifos y complementos de menaje no subordinados a estilos o tendencias. Una máxima atención a los materiales y un peculiar control en el proceso de elaboración son la garantía de las empresas que comparten el concepto de calidad total.
